
Schedule Announced for Conference & Workshops on SOA, SaaS, Virtualisation & ECM

Posted by shaguf - 2008/09/01 13:06

When Technologies Mean Business, Participation Means Advantage. The schedule for Business Technology Summit has been announced. The theme of this year's summit is Riding the Workhorse IT Hockey Stick, featuring a convergence of four co-located tracks that have been identified as the power team for Workhorse IT -- SOA & Web Services, SaaS/PaaS, Enterprise Content Management and Virtualisation. View the complete schedule here <http://www.btsummit.com/summitSchedule.html>

Gain Strategic, Technical and Business Insights at BT Summit 2008, Bangalore Edition:

- * Dr. Chris Harding of The Open Group will present straight from the source a deep dive workshop on Using TOGAF for SOA.
- * Alan Pelz-Sharpe will put ECM and SOA through the SWOT Grind, speak about Email Archiving and Discovery, and lead a workshop on Selecting the Best ECM System.
- * Peter Coffee will show you how to Code In the Cloud as well as lead a deep dive workshop on Enterprise Readiness for the Cloud
- * Dr. Matjaz Juric, CEO of the SOA Competency Center, will conduct a hands-on workshop on BPMN to BPEL Modeling Business Processes for SOA and three focused sessions on SOA Architectural Patterns, SOA and BPM, and Designing Reusable Service Interfaces
- * Dr. Robert Marcus, Author of the Global Grid, will present the State of the Union - SOA Standards and lead a deep dive workshop on Future Distributed Computing Architectures and the Role of SOA
- * Nitin Borwankar will show you How to Find the Silver Lining in Cloud Services and lead a deep dive workshop on Affordable Data Analytics and Data Warehousing

Business Technology Summit is your chance to refresh, pick up new tips and techniques, and network with your peers to find solutions to the most pressing business technology issues today. The four technology tracks at the summit offer complimentary synergistic for a robust IT infrastructure that you cannot afford to ignore in your quest for business technology success.
